

Check out our Java Masterclass  
by Dr. Amar Panchal

# Java

Basic Syntax

DataTypes, Variables

Conditionals

Functions

Memory Management

Collection Framework

Serialization

Networking & Sockets

Gradle

Maven

Ant

Spring Data JPA

Hibernate

EBean

JDBI3

JDBC Template

Unit Testing

JUnit

TestNG

Integration Testing

REST Assured

JMeter

## Learn the Fundamentals

Loops

Exception Handling

## Getting Deeper

Generics

DataStructures

OOP, Interfaces, Classes

Packages

Working with Files and APIs

How JVM works?

Garbage Collection

Basics of Threads

Spring

Spring Boot

Play Framework

Spark

TinyLog

Logback

Log4j2

## Logging Frameworks

Mocking > Mockito

## Testing your Apps

Behavior Testing

Cucumber-JVM

Cukes

JBehave
